

PACKRITE™

Rugged, Dependable Sealing Equipment

Ruggedness You Can Trust

- High value and amazing total cost of ownership!
- Built to last for extended service life.
- Engineered for minimal maintenance.
- Designed for easy access when maintenance is required.
- A trusted brand made in the USA since 1938.

Bandrite 6000 Features and Technical Data

Dependable Performance

- **Industrial-grade durability:** Constructed for multi-shift, production-line use, with heavy-gauge frames and industrial electronics designed for uptime.
- **Wide Variety of Applications:** Ideal for USDA and MIL-SPEC environments—perfect for food, agriculture, military, and many more!
- **High Throughput:** Outstanding seals at fast speeds.
- **Simple and Easy Operation:** Power, speed and temperature controls in one convenient panel.
- **Easy to Maintain:** Simplified access to sealing bands and heat/cool bars means maintenance and repairs are fast, and without specialized tools.

Adjust-to-Height Stand

- Included with Bandrite.
- Manual height adjustment allows the sealer to be easily raised or lowered to accommodate different bag sizes or conveyor heights.
- Integrates well with conveyor systems or bag filling operations for ergonomic and efficient workflows.

Feature	Specification
Sealing Speed	Up to 750 in/min (≈62 ft/min)
Seal Width	3/8" or 3/4" flat; optional crimp
Film Capacity	12 mil flat, 6 mil gusset (24 mil total)
Heat Control	Up to 600 ±2 °F
Bandrite Dims	59" x 58.25" x 34"
Weight	450 lbs.
Materials Sealed	Kraft; foils; polypropylene, cellophane, MIL-SPEC material, Poly laminates & polyethylene & More!
Max/Min Height	Max 58.25" Min 19"
Bar Lengths	10" heating, 8" cooling for consistent, high strength seals
Electrical	115 V, 50/60Hz, 1 Phase
Bag Feeding Direction	Right-to-left or left-to-right (at time of order)
Tool-less band swaps	Change sealing bands in minutes—no tools, zero downtime
Neoprene belt-driven	Handles rugged environments
Country of Origin	USA

Bandrite 6000 Accessories

- **Pressure Rollers**

Ensures smooth, consistent seals with a clean, professional look.

- **Emboss Coder**

Imprints date or lot codes directly onto each seal for traceability.

- **Bag Counter**

Tracks and displays accurate counts of sealed bags to streamline production.

- **Bag Perforator**

Allows for easy tear perforations for user-friendly bag opening.

- **Infeed Assist Guides**

Improves safety and efficiency during bag feeding.

- **Bag Crimpers**

Forms unique, high quality seal patterns.

- **Bag Trimmer**

Trims bags to edge of the seal for consistent appearance.

Optional Caster Set

- 360° swivel capability for tight maneuvering in crowded or flexible production layouts.
- Makes repositioning equipment simple for cleaning, maintenance, or process reconfiguration.
- Designed to bolt directly to the frame with included mounting hardware.
- Adds an additional 4 inches to the overall height.

BANDRITE 6000 Stainless Steel Conveyors

- **Speed & Control**

Variable DC speed control up to 750 in/min, synchronized with BANDRITE sealing speeds.

2 feed directions (right-to-left or left-to-right) for seamless line integration.

- **Durable Construction**

Heavy-duty stainless-steel frame for stability and sanitary operation.

Equipped with leveling feet ($\pm 2''$) or lockable casters for mobility and setup flexibility.

- **Belt Quality**

USDA-approved neoprene belt, water-resistant, food-grade, and slip-resistant.

Ideal for light to heavy bag loads.

- **Height & Length Flexibility**

Standard belt height is $\sim 30''$ from floor (adjustable as needed).

Available lengths include 8 ft (9' overall) and 16 ft (17' overall) runs—customizable per line specs.

- **Power Requirements**

Single-phase 115 V, 50/60 Hz AC — compatible with standard US outlets and BANDRITE sealers.

Conveyor Accessories:

- **Caster Kit**

Adds mobility for easy repositioning of equipment (4 inches in height)

- **Sealer/Conveyor Caddie**

Provides a convenient mounting platform for both sealer and conveyor

- **Synchronizing Drive**

Matches conveyor speed with the Bandrite for seamless operation
